

On campus farmer's training on fertilizer management under SCSP scheme by CAZRI, RRS, Jaisalmer

On campus input distribution cum training on “Fertilizer Management of Kharif Crops” was organized on 1st August 2022 by ICAR-CAZRI, RRS, Jaisalmer. A total of 45 farmers from Kotri village of Jaisalmer district were participated and benefited from this programme. At the onset, Dr. M. Patidar, Head, RRS, Jaisalmer welcomed the farmers and delivered lecture on balance use, methods and time of fertilizer application in Kharif crops for enhancing crop productivity. He also emphasized the importance of fertilizer in integrated nutrient management under rain fed condition. Dr. S.C. Meena discussed the problem of insect pest in Kharif crops at length and suggested the managements. Dr. Dileep Kumar Dangi emphasized on integrated farming system in arid region. Dr. Anil Patidar explained the importance of organic manure and bio-fertilizers for improving productivity of Kharif crops. Dr. Saranya R. discussed the problem of disease in kharif crop and suggested the management. Inputs in form of fertilizer (Urea) were distributed to each farmer. Farmers also visited Nursery, Ber, Karonda and *Grewia* block. They were very happy for getting fertilizer for utilization on their fields. They were also benefited from training programme.
